

RBT24|7

RESIDUAL BARRIER TECHNOLOGY

NRCS Registered
(National Regulator for Compulsory Specifications)
Registration number: Act5GNR529/280907/040/0525

To ensure the sanitising and reducing of the number of viable micro organisms in the workplace

INTRODUCING NEW AGE HAND SANITISER

“SADIE”

- Sanitising of employees and visitors with finger printing
- Monitors the frequency of sanitising the hands
- Safe to use due to water base sanitizer
- Further customisation possibilities to time keeping or mechanism to allow access
- Developed for the use of RBT247 sanitizer which continues to kill harmful pathogens – residual efficacy on skin lasts up to 9 hrs or from wash to wash.

TO BE LAUNCHED IN MARCH 2015
